Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-3, drawn to a method of wrapping a rubber strip around a forming drum, classified in class 156, subclass 184.
- II. Claim 4-6, drawn to an apparatus for wrapping rubber strip around a forming drum, classified in class 425, subclass 363.

The preambles for Claims 5 states "method for wrapping the rubber strip according to claim 4" (Page 10, Line 4). However these claims depend on Claim 4 which is directed towards an apparatus. Therefore the phrase should read "The apparatus for wrapping the rubber strip according to Claim 4." Appropriate correction is required.

The preambles for Claims 6 states "method for wrapping the rubber strip according to claim 4" (Page 10, Line 8). However these claims depend on Claim 5 which is directed towards an apparatus. Therefore the phrase should read "The apparatus for wrapping the rubber strip according to Claim 5." Appropriate correction is required.

Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). The process can be performed with an apparatus other than that of Group II, for example, the contractible arm member of Group II is not required.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

A telephone call was made to David Nikaido on April 16, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
